UniWellness Hub

Introduction:

UniWellness Hub is designed to provide mental health assistance and support to university students who are struggling with mental illness. Recognizing the prevalence of mental health issues among college students and the need for accessible resources, this project aims to create a platform that offers comprehensive support tailored to the unique challenges faced by university students.

User Stories:

1.User Stories of Student:-

User Story	Acceptance Criteria
As an student, I should be able to register/login myself,so that I can get access to my saved data.	➢ Test the Password with Security Constraints ➢ Test with illegal/empty entries ➢ Test with different ways of authentication(Email/Contact No.) ➢ Test with existing accounts ➢ Test Login with an Unregistered account
